

responsAbility Global Microfinance Fund

Monthly report November 2009

Investment advisor's comment

In November the fund was able to make numerous smaller investments totaling USD 12.6 million in eleven countries. For the first time these included a fair trade investment in Chile and an investment in the microleasing business in Sri Lanka. Even though demand for refinancing remains fairly restrained, in the next few weeks we see various opportunities for interesting investments that will enable the fund to reduce its cash position. Despite initial signs of easing, the situation in Nicaragua remains tense. The difficult economic and political situation is still making business harder for many MFIs. As a result, the fund set aside further provisions this month.

Fund facts

Total fund volume	USD 490'419'938
MF & FT investments*	USD 349'002'452

This document was produced by responsAbility Social Investments AG (hereafter "responsAbility") with the greatest of care and to the best of its knowledge and belief. However, responsAbility provides no guarantee with regard to its content and completeness and does not accept any liability for losses which might arise from making use of this information. The opinions expressed in this document are those of responsAbility at the time of writing and are subject to change at any time without notice. If nothing is indicated to the contrary, all figures are unaudited. This document is provided for information purposes only and is for the exclusive use of the recipient. It does not constitute an offer or a recommendation to buy or sell financial instruments or banking services and does not release the recipient from exercising his/her own judgment. The recipient is in particular recommended to check that the information provided is in line with his/her own circumstances with regard to any legal, regulator, tax or other consequences, if necessary with the help of a professional advisor. This document may not be reproduced either in part or in full without the written permission of responsAbility. It is expressly not intended for persons who, due to their nationality or place of residence, are not permitted access to such information under local law. Every investment involves risk, especially with regard to fluctuations in value and return. It should be noted that historical returns and financial market scenarios are no guarantee of future performance. Investments in foreign currencies involve the additional risk that the foreign currency might lose value against the investor's reference currency. The responsAbility Global Microfinance Fund (hereinafter referred to as the "Fund") is an investment fund domiciled in Luxembourg and is registered for public sale in Switzerland as a foreign investment fund with specific risk features. The responsAbility Global Microfinance Fund invests its assets in securities with which financial service companies in less developed countries are financed and/or refinanced. Investors are expressly made aware of the risks described in the prospectus and the lower liquidity and greater difficulty in determining the value of the Fund's investments (which are generally unlisted and not traded), and must also be prepared to accept substantial price losses including the entire loss of their investment. The risks inherent in the Fund cannot be compared with other funds which invest in debt instruments of issuers in developed countries. Units in the responsAbility Global Microfinance Fund should therefore account for only a small portion of an investor's portfolio and should be held as part of a broadly diversified portfolio. The Management Company and the Investment Advisor, however, will seek to minimize the risks by a strict selection of investments and appropriate diversification. The Representative of the Fund in Switzerland is Credit Suisse Asset Management Funds, Zurich. Paying Agent in Switzerland is Credit Suisse, Zurich. Subscriptions are only valid on the basis of the current sales prospectus and the most recent annual report (or half-yearly report, if this is more recent). The prospectus, the management regulations and the annual and half-yearly reports may be obtained free of charge from Credit Suisse Asset Management Fund Service (Luxembourg) S.A., Luxembourg, Credit Suisse Asset Management Funds, Zurich and from any distribution partner.

LuxFLAG is an independent entity based in Luxembourg that aims to promote the raising of capital for microfinance by awarding its Label to eligible Microfinance Investment Vehicles (MIV). The primary objective of the Label is to reassure investors that a MIV actually invests, directly or indirectly, into microfinance. The LuxFLAG Label is not a recommendation to invest, nor does it represent a guarantee of performance. The label is awarded for a year and is renewable.
