

responsAbility Global Micro and SME Finance Fund

Authorised in Switzerland to be distributed as foreign fund with special risks

Investment Fund under Luxembourg Law

Sales Prospectus

December 2019

This document is an unofficial translation of the German language Sales Prospectus of responsAbility Global Micro and SME Finance Fund, which has not been approved by any regulatory authority. This unofficial translation is provided for information purposes only and should not be relied on in any way.

The responsAbility Global Micro and SME Finance Fund (hereinafter the "Fund") invests its assets in loans and securities with which financial service companies in less developed countries are financed and/or refinanced. Investors are expressly made aware of the risks described in the Sales Prospectus and the lower liquidity and greater difficulty in determining the value of the Fund's investments, which are generally unlisted and not traded, as well as of the possibility of substantial price losses including the entire loss of their investment. The risks inherent in the Fund cannot be compared with other funds which invest in debt instruments of issuers in developed countries. Units in the responsAbility Global Micro and SME Finance Fund should therefore account for only a small portion of an investor's portfolio and should be held as part of a broadly diversified portfolio. The AIFM and the Portfolio Manager, however, will seek to minimize the risks by a strict selection of investments and appropriate diversification.

1. Information for prospective investors

This Sales Prospectus is valid only if accompanied by the currently valid annual report, as well as the latest semi-annual report if this was published after the latest annual report. These reports form part of this Sales Prospectus.

The Sales Prospectus neither constitutes an offer nor an invitation to subscribe for Units of the Fund by a person in a jurisdiction in which such offer or such invitation is contrary to the law or in which the person who makes such offer or invitation is not qualified to do so or if such offer or invitation is made to a person to whom such offer or invitation is contrary to the law.

Information that is not included in the Sales Prospectus or in publicly available documents mentioned in the Sales Prospectus is considered to be non-authorized and may not be relied upon.

Potential investors should inform themselves as to the possible tax consequences, the legal requirements and any foreign exchange restrictions or exchange control requirements which they might encounter under the laws of the countries of their citizenship, residence or domicile and which might be relevant to the subscription, holding, conversion, redemption or disposal of Units. Further tax considerations are set out in Chapter 13, "Taxes and Expenses."

The Units of the Fund have not been, and will not be, registered under the United States Securities Act of 1933 ("1933 Act") or any of the securities laws of any of the states of the United States of America. The Fund has not been and will not be registered under the United States Investment Company Act of 1940, as amended, nor under any other US federal laws. Therefore, the Units of the Fund may not be offered or sold directly or indirectly in the United States of America, except pursuant to an exemption from the registration requirements of the 1933 Act.

Further, the Board of Directors of the AIFM has decided that the Units shall not be offered or sold, directly or indirectly, to any ultimate beneficial owner that constitutes a U.S. Person. As such, the Units may not be directly or indirectly offered or sold to or for the benefit of a "U.S. Person", which shall be defined as and include (i) a "United States person" as described in section 7701(a)(30) of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), (ii) a "U.S. person" as such term is defined in Regulation S of the Securities Act of 1933, as amended, (iii) a person that is "in the United States" as defined in Rule 202(a)(30)-1 under the U.S. Investment Advisers Act of 1940, as amended, or (iv) a person that does not qualify as a "Non-United States Person" as such term is defined in U.S. Commodities Futures Trading Commission Rule 4.7.

No application has been submitted or will be submitted, nor has any registration been or will be sought, by the Management Company to or from any of the Indian governmental or regulatory authorities in connection with the advertising, offer, distribution or sale of the Units in or from India and the Management Company does not intend to or will not, directly or indirectly, advertise, offer, distribute or sell the Units to persons resident in India.

The Units may not be purchased by persons resident in India nor by any persons subject to any other legal and regulatory restrictions in respect of the purchase of the Units. Persons into whose possession this Prospectus or any Units may come must inform themselves about, and observe, any such restrictions. The Management Company (as described below) will not disclose any confidential information concerning investors unless it is required to do so by applicable laws or regulations.

Potential investors who are in any doubt about the contents of this Sales Prospectus should consult their bank, broker, lawyer, accountant or other independent financial adviser.

This Sales Prospectus may be translated into other languages. To the extent that there is any inconsistency between the German-language Sales Prospectus and a version in another language, the German-language Sales Prospectus shall prevail, unless stipulated otherwise by the laws of any jurisdiction in which the Units are sold.

Investors shall read and consider the risk information in Chapter 10 "Risk Factors" before they make any investment in the Fund.

3. The Fund

The responsAbility Global Micro and SME Finance Fund (hereinafter the "Fund"), formerly responsAbility Global Microfinance Fund and subsequently responsAbility Micro and SME Finance Fund, was established (at that time under the name of "responsAbility Global Microfinance Fund") as an unincorporated, open-ended investment fund under Luxembourg law in Luxembourg by the Luxembourg public limited liability company responsAbility Management Company S.A. (at that time under the name of "CS Forex Fund Management Company") in association with Credit Suisse Asset Management International Holding Ltd., a wholly owned subsidiary of Credit Suisse as well as of Credit Suisse Asset Management Fund Holding (Luxembourg) S.A. The Fund has been registered as an undertaking for collective investment in the form of a "fonds commun de placement" and qualifies as alternative investment fund in Luxembourg, in accordance with part 2 of the Law of December 17, 2010 on undertakings for collective investment (hereinafter the "Law of 2010") for an undetermined period. responsAbility Investments AG has been appointed as the Portfolio Manager and Credit Suisse (Luxembourg) S.A. has been appointed as Depositary.

The Fund meets the requirements for an externally managed alternative investment fund pursuant to Art. 1 (39) and 4 of the Luxembourg Law of July 12, 2013 on managers of alternative investment funds (hereinafter the "Law of July 12, 2013"). MultiConcept Fund Management S.A. acts as alternative investment fund manager (the "AIFM") for the Fund (see Chapter 14 "Alternative Investment Fund Manager").

All of the Fund's assets, which are separate from those of the AIFM, are co-owned by all investors in line with the number of Units they hold respectively, whose Units are not securitized. There is no provision in the Management Regulations of the Fund for any meeting of the unitholders. By signing or acquiring Units the unitholders acknowledge the Management Regulations.

The AIFM currently issues Fund Units in a US dollar class (hereinafter "US-Dollar"), a currency-hedged Swiss franc class (hereinafter "CHF-H"), a currency-hedged euro class (hereinafter "EUR-H"), a currency-hedged Norwegian krone class (hereinafter "NOK-H"), another US dollar class (hereinafter "US Dollar-II"), another currency-hedged Swiss franc class (hereinafter "CHF-II"), another currency-hedged euro class (hereinafter "EUR-II") and another currency-hedged Norwegian krone class (hereinafter "NOK-II"). Units of the US Dollar-II, CHF-II, EUR-II and NOK-II classes may only be subscribed by investors who have signed a written agreement with a selling agent in which the acquisition of classes for which no distribution fees are payable is explicitly provided for or who are residents of or domiciled in the Netherlands.

Name	Currency	Specific characteristic before subscription
US-Dollar	US-Dollar	
CHF-H	Swiss franc (currency hedged)	
EUR-H	Euro (currency hedged)	
NOK-H	Norwegian krone (currency hedged)	
US-Dollar-II	US-Dollar	written agreement with a selling agent or residence or domicile in the Netherlands
CHF-II	Swiss franc (currency hedged)	written agreement with a selling agent or residence or domicile in the Netherlands
EUR-II	Euro (currency hedged)	written agreement with a selling agent or residence or domicile in the Netherlands
NOK-II	Norwegian krone (currency hedged)	written agreement with a selling agent or residence or domicile in the Netherlands

The Management Regulations of the Fund were initially issued on November 17, 2003 by responsAbility Management Company S.A. (the "Former Management Company") and were announced by publication of the notification of filing with the Commercial and Company Register of Luxembourg on November 24, 2003 in the Mémorial, Recueil des Sociétés et Associations (hereinafter the "Mémorial"). They may be altered by the Management Company. All changes will be announced at least in the publications listed in "Information to Unitholders" and will be deposited with the Commercial and Company Register of Luxembourg. Changes become legally binding for all unitholders on the day following the announcement of the deposit with the Recueil Electronique des Sociétés et Associations (hereinafter "RESA"). The Management Regulations were last amended on November 1, 2019 and published in the RESA of December 19, 2019.

For reference, the Management Regulations are filed in their consolidated and currently valid form with the Commercial and Company Register of Luxembourg.

The Management Regulations, in addition to the provisions of this Sales Prospectus, shall govern the relations between the AIFM, the Depositary and the unitholders of the Fund.

The subscription forms used by potential investors to acquire Units of the Fund are subject to Luxembourg law. The competent courts in the city of Luxembourg shall have jurisdiction in any legal disputes arising between unitholders and the AIFM (acting for the Fund). As the AIFM itself is also domiciled in Luxembourg, no additional legal instruments for the possible recognition and enforcement of judgments in Luxembourg against it are necessary. Should a judgment be pronounced against the AIFM by a foreign, non-Luxembourg court on the basis of mandatory local legislative provisions, the legal instruments of the Brussels Agreement (for court judgments from an EU member state) or the Lugano Agreement or Luxembourg international private law (for court judgments from a non-EU member state) concerning the recognition and enforcement of foreign judgments shall apply. Potential investors and unitholders are advised to seek advice about the specific legal instruments available to them concerning the recognition and enforcement of court judgments.

Unitholders of the Fund may not request the division or liquidation of the Fund. However, the AIFM is entitled to terminate the administration of the Fund or dissolve individual unit classes at any time. Such termination will be published in the RESA and in two other newspapers in the Luxembourg region, including the "Luxemburger Wort". Beginning on the day on which the AIFM makes such a decision, no more Units will be issued.

On liquidation of the Fund, the AIFM will dispose of the Fund's assets in the best interests of the unitholders and instruct the Depositary to distribute the net liquidation proceeds after deduction of liquidation costs to the unitholders, in proportion to the respective net asset values of the individual Classes. Any liquidation proceeds that cannot be distributed to the unitholders shall be deposited with the "Caisse des Consignations" in Luxembourg until the statutory period of limitation has elapsed.

The first Units of the Fund were Units in the US dollar class and were issued on November 25, 2003 at a price of USD 100.- (plus issuing fees). The minimum subscription amount for the US-Dollar-Class was USD 1,000.- for the first subscription. Subsequent subscriptions are not subject to any minimum restriction.

4. Investment Objective

The amounts entrusted to the Fund aim at achieving a real increase in value over the long term as well as at contributing to the development of the financial sector in developing and emerging countries and by doing so enhancing the access to financial services to promote entrepreneurial activity, boost the economy and/or create employment. For this purpose, the Fund invests its money so that local, successful, respectively promising financial service providers can provide specific financial services to micro, small and medium-sized enterprises ("MSMEs") over the long term and, depending on demand, are in a position to achieve meaningful growth.

The investment objectives and the investment policy of the Fund were decided by the AIFM and are published in this Sales Prospectus. Any changes to the investment objectives and the investment policy are also

decided by the AIFM; in such cases, the Sales Prospectus will be updated accordingly.

Amendments to the Sales Prospectus require the prior consent of the Luxembourg financial supervisory authority, the Commission de Surveillance du Secteur Financier (hereinafter the "CSSF"). Should the CSSF deem the relevant changes to be significant, it may demand that the unitholders be granted a period of time in which to return their Units in the Fund free of charge prior to the entry into force of such amendments.

5. Description of the investment market

Institutions considered for investments are a very heterogeneous group of financial institutions focused on micro, small and medium-sized enterprises (hereinafter "MSME focused FIs") in developing and emerging countries and differ from each other regarding offerings and legal form. They include for example microfinance institutions, financing or leasing providers for small and medium-sized enterprises as well as providers of payment services or micro-insurance. The investment market has strong regional differences. Owing to historical circumstances and differences of a cultural, political, economic and regulatory nature, the financial sector is at various stages of development on the different continents.

The investment market is characterized by growth in terms of both quality and quantity. Both result in an increase in the number of profitable financial institutions focused on micro, small and medium-sized enterprises in developing and emerging countries which will be independent and viable in the long term. On the basis of past and continuing investment in strengthening the institutions, they are now ready to offer their services to a growing number of potential customers. However, the availability of refinancing capital is a limiting factor for possible growth.

The following aspects may be highlighted by way of a summary:

- The customer potential of the economic sector in which the investment is made has not been exhausted.
- Many MSME focused FIs in developing and emerging countries operate profitably and can thus be considered to be "regular" investment targets.
- Their demand for capital exceeds the supply.

6. Investment Concept

Particular attention is paid to the maturity and heterogeneity of the market when identifying and monitoring suitable investments for the Fund. Well-developed, long-standing contacts, a strong local presence as well as expertise and an overview of local, specific conditions and circumstances play a major role. The long-term goal is an increase in the value of the investment as well as socioeconomic benefits.

In addition to investing in MSME focused FIs in developing and emerging countries, the Fund will also invest to a limited extent directly in successful or promising small and medium-sized enterprises ("SMEs") and in actors that are involved in the agriculture value chain ("AVCAs").

Where required, the Portfolio Manager may also have recourse to partner organizations that are specialized in MSME focused FIs, SMEs or AVCAs.

7. Investment Process

The investment process includes the following steps:

a) Definition of the investment universe

MSME focused FIs considered for investments must in principle have the following characteristics:

- They must be domiciled in a country whose legal and tax structure is acceptable for the AIFM.
- The company's form must offer acceptable legal protection for investors.
- The company's objective must be geared to the professional provision of products or services and to appropriate earnings and growth expectations.

- They have to fulfill eligibility criteria to ensure that they follow good industry practice
- They have to have procedures in place to ensure compliance with a set of ESG criteria

b) Analysis

The analysis of the investment targets is part of a four-part quantitative rating system that evaluates the following criteria:

- the strategy pursued by the MSME focused FI,
- management of the MSME focused FI,
- financial performance of the MSME focused FI,
- development performance of the MSME focused FI.

The same system is used for SMEs and AVCAs. The decision as to whether an investment target is suitable for the Fund portfolio is taken on the basis of the analysis results.

The analysis of potential investments is generally performed by the Portfolio Manager. If a partner organization of the Portfolio Manager takes on that task, a due diligence procedure is used to ensure that the partner organization has the necessary processes, systems and skills to carry out this task in accordance with the Fund's investment objective and investment policy. The Portfolio Manager continuously monitors the quality of the partner organization's work and ensures that it meets the Fund's strict quality criteria.

c) Investment decision

When making a decision, additional factors are considered with regard to the amount and timing of investments:

- investment conditions (expected return, duration, seniority, collateral, etc.)
- the Fund's liquidity
- compatibility with the investment strategy
- portfolio requirements and investment guidelines.

d) Ongoing monitoring

Investments are monitored continuously. Regular reporting regarding financial and development performance aims at achieving continuous monitoring of risks and results.

The Portfolio Manager is contractually obliged to continuously monitor the political and economic situation in the investment countries as well as the financial position and creditworthiness of the investment targets. It shall notify the AIFM immediately in the event of an occurrence of "critical situations" that might influence the investment targets' ability to pay in relation to the Fund and that may be relevant from a valuation perspective. Such critical situations would include political unrest, which might lead to a moratorium on payments to foreign investors, the rapidly deteriorating financial situation or credit portfolio quality of an MSME focused FI or the involvement of the MSME focused FI in serious legal irregularities.

e) Measures to be taken in the event of a default

A default occurs when a claim on the part of the Fund is not settled within two weeks following the agreed payment date.

In such cases, the Portfolio Manager is contractually obliged to immediately submit proposals to the AIFM in relation to the safeguarding of investors' interests and to execute them on request of the AIFM.

8. Investment Policy / Instruments

The Fund may invest in the following investment categories:

- loan and debt securities
- shareholdings (incl. private equity)
- liquidity/money market.

The beneficiary institutions (MSME focused FIs, SMEs, AVCA) are usually domiciled in developing and transition countries, primarily in the following regions:

- Latin America
- Africa
- Central and Eastern Europe
- Asia

The Fund's investments are usually in US dollars or euro. To a limited extent investments may be made in freely convertible local currencies of the target countries (non-OECD area).

The Fund invests primarily in fixed income instruments that may take the following forms:

Investment instrument	Description
Loans to or debt securities (including bonds with or without conversion rights, notes, promissory notes, bills and other fixed or variable rate securities) of MSME focused FIs, SMEs or AVCA	Loans and promissory notes are widely used investment instruments in the MSME focused FI/SME/AVCA market. They are used mainly to refinance the credit portfolios of MSME focused FIs or to finance AVCA or SMEs. Larger MSME focused FIs, MSME focused FI networks or MSME focused FI/SME/AVCA intermediaries are increasingly issuing bonds to finance their own activity.
Special-purpose loans to and debt securities of MSME focused FI/SME/AVCA intermediaries	These organizations use the funds to refinance MSME focused FIs/SMEs/AVCA which they have often helped to establish or whose establishment they are supporting.
Special-purpose loans to and debt securities of local commercial banks in non-OECD countries	These banks use the funds to finance MSME focused FIs/SMEs.
Collective investment instruments (indirect investments)	Units of investment funds, shares in investment companies or other vehicles which all invest in the same way as the responsAbility Global Micro and SME Finance Fund in the MSME focused FI/SME/AVCA sector.
Money market instruments	The Fund's liquidity may be partially invested in freely saleable money market paper of issuers in OECD countries.
Bonds and money market instruments issued by public international bodies which are active in the development sector or by local commercial banks in non-OECD countries in addition to government securities of non-OECD countries	In the event of a liquidity overhang, the Fund may partially invest in these listed instruments on a short-term basis.

The Fund may also hold a limited portion of equity capital (shares, dividend right certificates, cooperative shares, participation certificates, etc.), either directly or indirectly. This type of investment is still very illiquid and often pays no ongoing income/dividends from the outset. Capital is tied up for a long time. Corresponding investment vehicles – e.g. in the form of diversified investment companies – are rare. This type of investment has significant potential, but will remain limited for the foreseeable future.

Loans to and debt securities of specialized intermediaries are always earmarked for financing MSME focused FIs, SMEs or AVCA. These investments are structured so as to maintain direct claims against the institutions concerned and to exclude any credit risks of the intermediaries. It is also possible to invest in loans to or debt securities of intermediaries that are for a specific purpose and where the repayment

obligations are dependent on the repayments of the institutions to the intermediary ("limited recourse"-mechanism).

The Fund keeps the investments in MSME focused FIs with short (six to eighteen months) to medium maturities (from three to typically five years). The Fund does not aim at a constant average duration of capital tie-up for its investments. Typically, this period will be between two and three years. In addition to cash accruing from the maturity of shorter-term investments, liquidity will regularly accrue to the Fund from interest payments (usually remitted every six months) and – where contractually agreed – from amortization payments during the term of the investments concerned.

The Fund portfolio will change over time. The reasons for this include rapid changes in the MSME focused FI, SME and AVCA markets and the market for corresponding investment products.

Credit risks are minimized primarily by a targeted selection of suitable investment targets and partner organizations. An additional risk reduction is pursued by means of diversification across investment categories and instruments. The Fund also seeks to achieve broad geographical diversification across countries and the following continents/regions: Central America, South America, Sub-Saharan Africa, Middle East and North Africa, Eastern Europe and Central Asia, as well as South, Southeast and East Asia.

The Fund may actively hedge interest rate risks. Currency risks against local currencies may also be hedged. On the other hand it is expected that the largest part of the investment instruments are issued in US dollars. In the Euro, Norwegian krone and Swiss franc unit classes, the currency risk is as a rule hedged against the US dollar. Corresponding instruments to hedge risks relating to investments in local currencies of target countries (non-OECD area) are classed as expensive, not sufficiently in line with needs or illiquid. This is why the corresponding risks are not always hedged. Risk can be contained by limiting investments in local currencies and by diversifying these currencies as broadly as possible.

The AIFM and the Portfolio Manager will strive to set up sufficient liquidity within the Fund portfolio by structuring maturities so as to be able to redeem Fund Units. Furthermore, the AIFM and the Portfolio Manager will regularly check the liquidity situation and, if necessary, will invest part of the Fund's assets in more liquid instruments or create liquidity.

With this type of investment transactions, the Portfolio Manager may also use its own local representative offices for the Fund, or may obtain advice from partner organizations.

9. Investment Restrictions

The following provisions shall apply to the investments made by the Fund:

1. The Fund may only invest in:
 - a) securities, although they do not necessarily have to be traded on a stock exchange or other regulated market open to the public. However, except for the case stipulated under b) they must be freely saleable and not subject to any restrictions;
 - b) securities whose saleability is restricted, provided that the totality of such securities does not exceed 10% of the Fund's net assets; this restriction does not apply to investments in private equity as per para. 2) of the present section;
 - c) money market instruments and securitized claims that have comparable characteristics to securities or money market paper, provided they are freely transferable, saleable and can be valued at any time;
 - d) claims arising from loans (including sub-participations in loans) to MSME focused FIs/SMEs/AVCAs or intermediaries who finance MSME focused FIs/SMEs/AVCAs;
 - e) cash and time deposits with credit institutions;
 - f) indirect investments (excluding funds of funds) in the form of Units of open-ended undertakings for collective investment (hereinafter called "OCIs") or Units of closed-ended OCIs traded on a stock exchange or another regulated market open to the public or securities of investment companies or participation companies of any legal form, provided in each case that (i) the total investments do not exceed 10% of the Fund's assets, (ii) the investment policy of the respective investment is in line with that of the Fund, and (iii) in the case of investments managed or advised by the AIFM, the Portfolio Manager or by persons with which either of these is related by virtue of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes, no additional fees or expenses may be charged to the Fund for the subscription or redemption of Units of these other indirect investments by the Fund, and no management fee may be charged in respect of such investments unless the other indirect investment itself does not levy any management fee;
 - g) indirect investments (excluding funds of funds) in the form of securities of investment companies or participation companies of any legal form or Units of closed-ended OCIs not traded on a stock exchange or another regulated market open to the public, subject to the following provisos: (i) The total of these investments does not exceed 20% of the Fund's assets; (ii) the investor benefits in terms of diversification, access to markets or liquidity; (iii) the investment policy of the respective investment is broadly in line with that of the Fund; (iv) there is a complete transparency in respect to all indirectly held investments (in terms of investment decision processes, risk control mechanisms and financial data) and regular reports are issued to permit assessment of the investment's value; (v) the investment is negotiable and transferable, and (vi) in the case of investments managed or advised by the AIFM, the Portfolio Manager or by persons with which either of these is related by virtue of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes, no additional fees or expenses may be charged to the Fund for the subscription or redemption of Units of these other indirect investments by the Fund, and no management fee may be charged in respect of such investments unless the other indirect investment itself does not levy any management fee.
2. The Fund may not hold, either directly or indirectly, more than 25% of its assets as equity capital (incl. private equity) and may not acquire, either directly or indirectly, more than 20% of the capital of a single issuer. However, the Fund may not invest more than 10% of its net assets in private equity.
3. The Fund is subject to the following rules on diversification:
 - a) The Fund must not invest more than 10% of its net asset value in securities and/or money market instruments issued by the same issuer. In addition, the total value of all transferable securities or money market instruments of those issuers in which the Fund invests more than 5% of its net assets may not exceed 40% of its net asset value.
 - b) The limit of 10% per individual issuer may be increased to 20% for indirect, diversified investments (Units of undertakings for collective investment and securities of investment companies and participation companies) which themselves invest in a number of different investments, these investments being diversified in such a way that no individual investment accounts for more than 10% of the net assets of the Fund. These investments do not fall under the 40% limit defined in 3 a).
 - c) The Fund may not invest more than 30% of its assets in local currencies of target countries (non-OECD area) that are not hedged against the Fund currency; moreover, at the time of the investment, no more than 5% of the Fund's assets may be held in each unhedged local currency.
 - d) The Fund may not invest more than 20% of its assets directly in an individual developing or transition country.
 - e) The Fund may not invest more than 30% of the Fund's assets directly in SMEs and AVCAs.
4. For the temporary investment of liquidity surpluses, the Fund may invest in bonds and money market instruments issued by public international bodies which are active in the development sector or by local commercial banks in non-OECD countries in addition to government securities of non-OECD countries. Such investments may not exceed 50% of the Fund's assets in overall terms. Bonds and money market instruments issued by the above private and public issuers must exhibit a rating of at least Ba3 (Moody's) or BB- (Standard & Poor's).
5. Solely in order to finance foreseeable liquidity shortfalls, the Fund may take up loans on a temporary basis, provided these do not total more than 10% of the Fund's assets.
6. The Fund may not enter into any forward foreign exchange or currency derivatives transactions except for the purpose of hedging the investments' currency risk. In order to hedge currency risks, the Fund may sell currency futures and call options on currencies, buy put options on currencies, sell currencies forward or enter into currency swaps with first-class financial institutions specializing in this type of transaction. For reasons of efficiency and in the investors' best interests, the Fund may also – for the purpose of hedging the specific risks of local currencies – enter into currency hedging transactions with other specialized and recognized counterparties.

The default risk per counterparty for transactions with specialized and recognized counterparties may not exceed 5% of the Fund's net assets, with the proviso that the total limit of 10% of the Fund's net assets for such transactions may not be exceeded.

The limit of 5% rises to 10% if the counterparty is a financial institution with its registered office in an EU member state or, if the financial institution's registered office is in a third country, it is subject to supervisory rules comparable to the requirements of EU community law.

The volume of the above-mentioned transactions in a particular currency may not exceed the total value of assets in the Fund denominated in that currency, nor may the duration of such transactions exceed the period for which the assets are held by the Fund.

10. Risk Factors

Potential investors should consider the following risk factors before investing in Fund Units.

- 1) The Fund invests in countries classified as threshold, transition or developing countries. These investments entail considerable risks. Subscriptions to the Fund are thus suitable only to investors who are fully aware of, and able to bear, the risks related to this type of investment. An investment in the Fund should be seen as a long-term commitment.
- 2) Moreover, the Fund invests a large portion of its assets in debt instruments that are often not listed or traded on a stock exchange or regulated market. The issue of such debt instruments is not usually monitored by an authority. There is also no secondary market monitored by the authorities for such instruments, and the liquidity of these instruments is accordingly low. As these debt instruments are issued by issuers or borrowers who are new to the

market or were only recently established, the selection of investments is not based on detailed historical analyses of the issuer's or borrower's activities. Consequently the risks and default risks for such investments are much greater than for conventional securities.

The Fund portfolio will therefore be exposed to risks that usually apply to investments in new investment areas. The Fund's investments are much more speculative and entail a greater risk than would normally be the case when investing in securities. The MSME focused FIs sometimes do not have a regulated status as a bank or credit institution and are thus not monitored by an authority in the respective country. Therefore, if an MSME focused FI were to become insolvent, the Fund does not have the same guarantee that would apply to banks or other credit institutions; moreover, the lack of monitoring means that the bankruptcy risk of the MSME focused FIs is also higher. There may also not be any corresponding authorities or monitoring and security mechanisms for companies and organizations that operate in the agricultural field.

- 3) The Fund will invest in countries whose stage of development cannot be compared with that of industrialized countries. In relation to each other and in terms of growth of GDP or GNP, inflation (which may be much higher in threshold, transition and developing countries than in other countries), capital investment, self-sufficiency and balance of payments, the economies of the individual countries may be doing well or less well. Issuers of securities and borrowers are usually subject, to differing degrees, to regulations regarding insider trading, market manipulation, issuing of voting proxy and the timely publication of information. Furthermore, the binding standards on reporting, balance sheet preparation and auditing of financial statements in the individual countries may vary considerably in various key points; investors and lenders in some countries may have access to less information than is the case in other countries. Nationalization, expropriation or taxation that is equivalent to expropriation, exchange rate controls, political changes, government provisions, political or social unrest or unfavourable diplomatic developments may impact negatively on the economy of a country or the portfolio's investment in this country. Expropriations, nationalization or other confiscation could affect MSME focused FIs, SMEs as well as companies and organizations operating in the agricultural field, and the Fund could lose its entire investment in the country concerned. Furthermore, the laws of the countries involved that govern company, bankruptcy and insolvency law could offer security holders and lenders less protection.
- 4) The agricultural sector is sometimes subject to factors such as weather, climate, pests, natural disasters, etc. with the corresponding consequences for investments in this field.
- 5) The monies available to the Fund serve to finance companies and AVCAs in threshold, transition and developing countries and are used by MSME focused FIs whose financial situation is by no means comparable with that of financial institutions in industrialized countries. Even if an urban audience is largely targeted and if repayments are less dependent on rural economic problems, the typical problems in the agricultural sector of the countries concerned, including natural disasters and price slumps for local agricultural products, have a substantial effect on the repayment possibilities of the urban population. The risk of loss can, in unfavorable periods, be much higher than in developed countries.
- 6) In these countries, foreign investments are often subject to restrictions and controls of varying degrees. The restrictions and controls affecting the Fund may sometimes rule out investments and increase the costs of investments. Many countries demand government approval before a foreigner can invest in a certain company, or may limit the investments of foreigners to a certain percentage of the securities in circulation of a given issuer; or they may restrict the investment options for foreigners to a single class of securities of a company, to which less favourable conditions (including the price) are attached than to securities of the company available to nationals of that country. Similar restrictions may also exist with loans to local companies. In addition, the repayment of investment income, capital or revenues from the sale of securities or repayment of loans is governed by law in many countries,

including in some cases a requirement of prior announcement to state authorities or official approval. If a country's balance of payments deteriorates it is also possible that the country will issue a temporary restriction on the export of capital.

- 7) As a consequence of a delay or denial of official authorization that may be required for the repatriation of capital, or other restrictions applicable to the Fund's investments, can adversely affect the value of the Fund portfolio. The liquidity of investments in countries where such factors affect the portfolio may suffer as a result. The limited liquidity of certain markets must be taken into account when evaluating investments; this may impair the Fund's ability to sell securities in order to meet redemption requests at the desired price and time. Transaction costs, including broker's fees, may also be higher than in industrialized countries.
- 8) Investments in companies that are still in the infant stages of development entail greater risks than is the case with securities of established companies. The securities of these companies are difficult to sell and are more susceptible to sudden, unstable market fluctuations than the securities of more mature companies or broadly diversified market indices. Accordingly, it is more difficult to determine the market value of this paper, which may have negative repercussions on the Fund and unitholders if large amounts have been spent or when Units are redeemed.
- 9) To a limited extent, the Fund may invest in private equity capital. Investments with private equity characteristics typically involve uncertainties that cannot be compared to those arising in the case of other types of investments. In many cases, private equity investments involve companies that have been in existence for only a short time and which intend to establish themselves in an existing market or occupy new business areas. The business concepts behind these companies are usually based on new, innovative products or processes. Consequently, the process of forecasting the performance of such companies, their business concepts and potential sales is often fraught with uncertainty.
- 10) Investments in a local currency entail the risk that the value of this currency may change in relation to one or several other currencies or that the currency's convertibility may be suspended. Factors that help to determine the value of a currency include the balance of trade, the level of short-term interest rates, differences in relative values of comparable assets in different currencies, long-term prospects for investments and capital growth as well as political developments. Conversion problems have led to repayment of loans or other claims to foreigners being impossible for long periods in various countries. The AIFM can take such risks into account or engage in hedging transactions to protect against risk. These transactions are in turn fraught with considerable risk; the markets in question – notably these countries' foreign exchange markets – may be subject to very large fluctuations. No assurance can be given that these investment strategies will be successful.
- 11) Investments in India: In addition to the restrictions set out in this Prospectus, direct investments made in India may be subject to the Fund obtaining a certificate of registration as "Foreign Portfolio Investor" ("FPI") (registration as Category II FPI) from a Designated Depository Participant ("DDP") on behalf of the Securities and Exchange Board of India ("SEBI"). In addition the Fund shall obtain a Permanent Account Number ("PAN") card from the Income Tax Department of India. The FPI Regulations set various limits for investments by FPIs and impose various obligations on the FPIs. Investments made directly in India may be subject to FPI Regulations prevailing at the time of the investment. Investors should note that the registration of the Fund as a FPI may be a condition precedent to certain direct investments by this Fund in the Indian market.

The FPI registration of the Fund can in particular be suspended or withdrawn by the SEBI in case of non-compliance with the SEBI's requirements, or in case of any acts or omissions in relation to compliance with any Indian regulations, including applicable laws and regulations relating to Anti-Money Laundering and Counter Terrorism Financing. No assurance can be given that the FPI registration will be maintained for the whole duration of the Fund. Consequently, investors should note that a suspension or a withdrawal of the FPI registration of the Fund may lead to a deterioration of the performance of the Fund, which as a

consequence, could have a negative impact on the value of the investors' participation depending on the prevailing market conditions at that time.

Investors should also note that the Prevention of Money Laundering Act, 2002 ("PMLA") and the rules framed thereunder in relation to the prevention and control of activities concerning money laundering and confiscation of property derived or involved in money laundering in India require inter-alia certain entities such as banks, financial institutions and intermediaries dealing in securities (including FPIs) to conduct client identification procedures and to establish the beneficial owner of the assets ("Client ID") and to maintain a record of Client ID and certain kinds of transactions ("Transactions"), such as cash transactions exceeding certain thresholds, suspicious transactions (whether or not made in cash and including credits or debits into or from non-monetary accounts such as security accounts). Accordingly, the FPI regulations have the ability to seek information from the FPI holder on the identity of beneficial owners of the Fund, hence information regarding investors of the Fund may be required for disclosure to local supervisory authorities.

As far as permitted under Luxembourg law, information and personal data regarding the investors of the Fund investing in the Indian market (including but not limited to any documentation submitted as part of the identification procedure prescribed in relation to their investment in the Fund) may be disclosed to the DDP, respectively to governmental or regulatory authorities in India upon their request. In particular investors shall note that, in order to enable the Fund to comply with the Indian laws and regulations, any natural person who, whether acting alone or together, or through one or more juridical person, exercises control through ownership or who ultimately has a controlling ownership interest above 10% of the Fund's assets may be required to disclose its identity to the DDP.

- 12) Certain countries or designated persons or entities may, from time to time, be subject to sanctions and other restrictive measures imposed by states or supranational authorities (for example, but not limited to, the European Union or the United Nations), or their agencies (collectively, "Sanctions").

Sanctions may be imposed among others on foreign governments, state-owned enterprises, sovereign wealth funds, specified companies or economic sectors, as well as non-state actors or designated persons associated with any of the foregoing. Sanctions may take different forms, including but not limited to trade embargoes, prohibitions or restrictions to conduct trade or provide services to targeted countries or entities, as well as seizures, asset freezes and/or the prohibition to provide or receive funds, goods or services to or from designated persons.

Sanctions may adversely affect companies or economic sectors in which the Fund may from time to time invest. The Fund could experience, among others, a decrease in value of securities of any issuer or borrower due to the imposition of Sanctions, whether directed towards such issuer or borrower, an economic sector in which such issuer or borrower is active, other companies or entities with which such issuer conducts business, or towards the financial system of a certain country. Because of Sanctions, the Fund may be forced to sell certain securities at unattractive prices, at inopportune moments and/or in unfavourable circumstances where it may not have done so in the absence of Sanctions. Even though the Fund will make reasonable efforts, acting in the best interest of the investors, to sell such securities under optimal conditions, such forced sales could potentially result in losses for the Fund. Depending on the circumstances, such losses could be considerable. The Fund may also experience adverse consequences due to an asset freeze or other restrictive measures directed at other companies, including but not limited to any entity that serves as a counterparty to derivatives, or as a sub-custodian, paying agent or other service provider to the Fund. The imposition of Sanctions may require the Fund to sell securities, terminate ongoing agreements, lose access to certain markets or essential market infrastructure, cause some or all of the Fund's assets to become unavailable, freeze cash or other assets belonging to the Fund and/or adversely affect the cash flows associated with any investment or transaction.

The Fund, the AIFM, the Portfolio Manager, the Depositary, the Central Administrator and any other members of the responsAbility group of companies and the Credit Suisse group of companies, as the case may be (collectively, the "Fund Parties") are required to comply with all applicable sanctions laws and regulations in the countries in which the Fund Parties conduct business (recognizing that certain of the sanctions regimes have implications for cross-border or foreign activities) and will implement the necessary policies and procedures to this effect (collectively, "Sanctions Policies"). These Sanctions Policies will be developed by the Fund Parties in their discretion and best judgment and may involve protective or preventive measures that go beyond the strict requirements of applicable laws and regulations imposing any Sanctions. Under no circumstances will the Fund Parties be liable for any losses suffered by the Fund because of the imposition of Sanctions, or from their compliance with any Sanctions Policies.

The AIFM and the Portfolio Manager will seek to reduce these risks by an appropriate selection and diversification of investments. However, there can be no guarantee that the investment objective will be met.

11. Participation in the responsAbility Global Micro and SME Finance Fund

a) Classes of Units

Eight classes of Fund Units are issued: a US dollar class ("US-Dollar"), a currency-hedged Swiss franc class ("CHF-H"), a currency-hedged euro class ("EUR-H"), a currency-hedged Norwegian krone class ("NOK-H") and one additional unit class for US dollars ("US-Dollar-II"), currency-hedged Swiss francs ("CHF-II"), currency-hedged euro ("EUR-II") and currency-hedged Norwegian krone ("NOK-II"); Units of these latter classes may only be subscribed by investors who have signed a written agreement with a selling agent in which the acquisition of classes for which no distribution fees are payable is explicitly provided for or who are residents of or domiciled in the Netherlands. The alternative currency classes differ inasmuch as the issuing and redemption price are determined in the reference currency of the respective class and that the foreign currency risk of the unit classes in euro, Swiss francs and Norwegian krone are hedged against their respective currencies. The investments in local currencies are largely hedged against currency risks. Accordingly, the net asset value of the Units in these alternative currency classes is subject to other trends than that of the US-Dollar-Class.

b) Net Asset Value

The net asset value per unit in each class is expressed in the reference currency of the respective class and determined by the AIFM on the last bank working day of each month (hereinafter the "Value Date"). The term "Banking Day" shall be understood as meaning any day on which the banks in Luxembourg are open for business. Here, the portion of the total net asset value allocated to each individual unit class is divided by the number of Units issued and in circulation in this class. The total net asset value of the Fund shall be calculated in US dollars.

The net asset value per unit in each class shall be rounded up or down, as the case may be, to the next smallest unit of the reference currency for the respective unit class which is currently used.

The assets of the Fund shall be determined as follows:

- a) Debt instruments, and especially promissory notes, not listed on a stock exchange or another regulated market plus claims arising from loans will be valued at their nominal value plus accrued interest. This valuation will be adapted, in the event of major fluctuations in interest rates in the relevant markets or in the event of other material market developments, if such circumstances affect the value of the investments. In the event of default or another critical situation that could lead to default, or in the case of the elimination or improvement of such a situation, the AIFM shall decide on the basis of information to be submitted to the Portfolio Manager as to whether and to what extent an adjustment should be made to the valuation of debt instruments.

- b) Securities which are listed on a stock exchange or which are regularly traded on such stock exchange shall be valued at the last known purchase price. If such a price is not available for a particular exchange session, but a closing mid-price (the mean of the quoted closing bid and ask prices) or a closing bid price is available, then the closing mid-price, or alternatively the closing bid price, may be taken as a basis for the valuation.
If a security is traded on several stock exchanges, the valuation shall be made by reference to the exchange on which it is chiefly traded. In the case of securities for which trading on a stock exchange is not significant but which are bought and sold on a secondary market with regulated trading among securities dealers (with the effect that the price is set on a market basis), the AIFM may decide to base the valuation on this secondary market.
- c) Securities traded on a regulated market shall be valued in the same way as securities listed on a stock exchange.
- d) Securities that are not listed on a stock exchange and are not traded on a regulated market shall be valued at their last available market price. If no such price is available, the Management Company shall value the securities in accordance with other criteria to be established by the AIFM and on the basis of the probable sales price, which shall be estimated with due care and in good faith.
- e) Fixed-term deposits and similar assets shall be valued at their nominal value plus accrued interest.
- f) The valuation price of a money market instrument shall be progressively adjusted to the redemption price, based on the net acquisition price and keeping the resultant investment yield constant. In the event of a significant change in market conditions, the basis for the valuation of individual investments shall be brought into line with the new market yields.
- g) Units in undertakings for collective investment will be valued at their last-stated net asset value. Other valuation methods may be used to adjust the price of these Units if, in the opinion of the AIFM, there have been changes in the value since the net asset value was last calculated.
- h) The amounts resulting from such valuations shall be converted into US dollars at the prevailing mid-market rate. Foreign exchange transactions made for the purpose of hedging currency risks shall be taken into consideration when carrying out this conversion.

If a valuation in accordance with the above rules is rendered impossible or incorrect owing to special or changed circumstances, the AIFM shall be entitled to use the generally recognized valuation principles in order to value the assets.

c) Subscription of Units

Units in the respective classes are issued monthly. Subscription requests must be submitted to a distribution agent three Banking Days before the respective Value Date, by 3 p.m. Central European Time (hereinafter the "Closing Time"). They will be settled at the respective net asset value per unit in the relevant unit class as calculated on the Value Date, plus an issuing fee of up to a maximum of 5% for Units in US dollar classes, euro, Swiss franc and Norwegian krone classes (US-Dollar, US-Dollar II, EUR-H, EUR-II, CHF-H, CHF-II, NOK-H and NOK-II) plus any taxes due. Payment of the issuing price is effected within two Banking Days after the Valuation Day.

Subscription requests received after the Closing Time in Luxembourg will be treated as if they were received on a Banking Day in the subsequent month.

The main distribution agent for selling Units is responsAbility Investments AG. The main distribution agent is in turn authorized to engage other banks and institutions with distribution tasks. Units in the Fund may, subject to the corresponding receipt, be acquired from the main distribution agent and distribution agent.

Units will be issued in unsecuritized form. Units may be issued either via collective depositories, in which case the unitholders shall receive a credit advice in relation to their Units from their preferred depository (e.g. their bank or stockbroker). Moreover, Units may be held by unitholders directly or via an account in the books kept by the Central Administrator for the Fund and unitholders. Units held by a depository may be registered in an account of the unitholder with the Fund's Administrator or transferred to

an account with other depositories approved by the AIFM or participating in the Euroclear or Clearstream Banking System S.A. clearing systems. Conversely, Units held in a unitholder's account kept by the Fund's Administrator may at any time be transferred to an account with a depository.

The AIFM may, in the interests of the unitholders, divide or consolidate the Units.

Based on the Management Regulations, the AIFM may, within the scope of its sales activities, refuse purchase applications, as well as suspend or limit the sale of Units to individuals or corporate bodies in particular countries or areas, either temporarily or definitively. Furthermore, the AIFM and the Central Administrator have the right to refuse purchase applications from U.S. Persons in their sole discretion. The AIFM may at any time redeem Units held by unitholders who are not entitled to acquire or possess these Units.

The AIFM has the right to refuse any transfer, assignment or sale of Units in its sole discretion if the AIFM reasonably determines that it would result in a U.S. Person holding Units, either as an immediate consequence or in the future.

No Units of the Fund will be, directly or indirectly, advertised, offered, distributed or sold to persons resident in India and no subscription applications for Units of the Fund will be accepted if the acquisition of these Units is financed by funds derived from sources within India or if the applicant is not entitled to acquire or possess these Units or fails to comply with any obligations associated with the holding of these Units under the applicable regulations. The AIFM and the Central Administrator have the right to refuse purchase applications for such Units.

Any transfer of Units may be rejected by the Central Administrator and the transfer shall not become effective until the transferee has provided the required information under the applicable know your customer and anti-money laundering rules.

d) Redemption of Units

The AIFM shall redeem Units in the Fund at the redemption price on the last business day of each month (hereinafter the "Redemption Date"). Redemptions may be requested by unitholders by means of a redemption application, which must be received by a distribution agent by 3 p.m. Central European Time at least ninety (90) calendar days before the respective Redemption Date. If redemption applications are received after this deadline they will be treated as requests for redemption on the next Redemption Date and at the net asset value per unit applicable on the corresponding valuation date.

The redemption price corresponds to the net asset value per unit applicable on the date of payment of the redemption price. Payment is usually made within two Banking Days of the valuation date, unless, because of statutory provisions such as foreign exchange restrictions or other circumstances beyond the control of the Depository, transfer of the redemption amount to the country in which the redemption was requested is impossible. Payment shall be made by means of remittance to a bank account or by cheque or, if possible, by cash in the currency that is legal tender in the country where payment is to be made, after conversion of the sum in question.

If redemption requests were made for more than 10% of the outstanding Units on the same valuation date, the AIFM may reduce these requests proportionally so that just 10% of the Units are redeemed. In this case, the requests for the Units not redeemed will be treated on the following Redemption Date(s) to which the same rule applies.

In the case of very large redemption applications, the Depository and AIFM may decide to defer payment until it has sold corresponding assets of the Fund without undue delay.

On payment of the redemption price, the corresponding unit shall cease to be valid.

If the AIFM discovers at any time that any beneficial owner of the Units is a U.S. Person either alone or in conjunction with any other person, whether directly or indirectly, the AIFM may at its discretion and without liability, compulsorily redeem the Units in accordance with the rules laid

down in the Management Regulations, and upon redemption, the U.S. Person will cease to be the owner of those Units. The Board of Directors of the AIFM may require any investor to provide it with any information that it may consider necessary for the purpose of determining whether or not such owner of Units is or will be a U.S. Person. Further, investors shall have the obligation to immediately inform the AIFM to the extent the ultimate beneficial owner of the Units held by such investor becomes or will become a U.S. Person.

The AIFM is entitled, at its discretion and without liability to compulsorily redeem, in accordance with the rules laid down in the Management Regulations, all Units held by persons resident in India or whose acquisition is financed by funds derived from sources within India, as well as Units held by Unitholders who are not entitled to acquire or possess these Units or who fail to comply with any obligations associated with the holding of these Units under the applicable regulations. As a consequence the Unitholders shall note that the legal, regulatory or tax requirements applicable to their investment in the Fund may include specific local requirements applicable as per the Indian laws and regulations and that non-compliance with the Indian regulations might lead to the termination of their investment in the Fund, the compulsory redemption (in whole or in part) of the Units held by the investors in the Fund, the retention of any redemption proceeds to the investors or to any other measures taken by the local authorities and impacting the investment of the investor in the Fund.

e) Suspension of Valuation of the Net Asset Value and/or of the Issue and Redemption of Units

The AIFM may suspend calculation of the net asset value and/or the issue and redemption of Units temporarily in the following cases:

- i.) if a political, economic, military, monetary or other event beyond the control, responsibility and influence of the AIFM does not permit the disposal of the Fund's assets under normal conditions, or such disposal would be detrimental to the interests of unitholders;
- ii.) if a market which is the basis for the valuation of a significant proportion of the Fund's assets is closed, or when trading on such a market is limited or suspended;
- iii.) if disruption to the communications network or any other reason makes it impossible to determine the value of a considerable part of the Fund's assets; or
- iv.) if, owing to limitations on foreign exchange transactions or other transfers of assets, business transactions become impracticable for the Fund, or where it can be objectively demonstrated that purchases and sales of the Fund's assets cannot be effected at the normal rates.
- v.) if, prior to the valuation day, new information becomes available in connection with a critical situation or default which could substantially alter the valuation of the Fund's overall assets and whose impact on the valuation cannot be assessed until the valuation day.

Such suspension of valuation will be communicated to the investors requesting Units of the Fund and to unitholders requesting the redemption of Units and, if the suspension is expected to last more than a week, shall be announced in the "Information to Unitholders" section of the listed newspapers.

f) Measures to Combat Money Laundering

The Selling Agents are obliged by the AIFM to ensure compliance with all current and future statutory or professional regulations applicable in Luxembourg aimed at combating money laundering. These regulations stipulate that the Selling Agents are under obligation, prior to submitting any application form to the Central Administration, to verify the identity of the purchaser and beneficial owner as follows, the Central Administration being entitled at its own discretion to request further identification documentation or to refuse to accept purchase applications upon the submission of all documentary evidence:

- a) Where the subscriber is a natural person, a copy of the passport or identity card of the subscriber (and the beneficial owner/s, where the subscriber is acting on behalf of another individual), which has

been properly verified by a suitably qualified official of the country in which such individual is domiciled;

- b) Where the subscriber is a company, a certified copy of the company's registration documentation (e.g. articles of association or incorporation) and an excerpt from the relevant commercial register. The company's representatives and (where the shares issued by a company are not sufficiently broadly distributed among the general public) shareholders must then observe the disclosure requirements given in point a) above.

The Selling Agents shall ensure that their sales offices adhere to the aforementioned verification procedure at all times. The Central Administration and the AIFM shall at all times be entitled to request the Selling Agent to supply evidence of compliance with the aforementioned verification procedure. Furthermore, the Selling Agents accept that they are subject to, and must properly enforce, the local regulations aimed at combating money laundering.

The Central Administration is responsible for observing the aforementioned verification procedure in the event of purchase applications submitted by Selling Agents which are not operators in the financial sector or which are operators in the financial sector but are not subject to an identity verification requirement equivalent to that existing under Luxembourg law. Permitted financial sector operators from member states of the EU, EEA and/or FATF (Financial Action Task Force on Money Laundering) are generally deemed to be subject to an identity verification requirement equivalent to that existing under Luxembourg law.

g) Market Timing

The AIFM does not permit "market timing" (i.e. systematically engaging in short-term trading in fund Units to unfairly exploit differences in the value of the funds). The AIFM therefore retains the right to refuse purchase and conversion applications which it believes to be suspicious, and to take appropriate measures to protect the other investors.

12. Appropriation of Net Income and Capital Gains

Income and capital gains are accumulated.

13. Taxes and Expenses

The following summary is based on the laws and practices currently applicable in the Grand Duchy of Luxembourg.

The Fund's assets are exempt from the tax normally payable quarterly in the Grand Duchy of Luxembourg (*taxe d'abonnement*) in accordance with Art. 175 d) of the Law of 2010, as the Fund's principal purpose is investment in MFI, pursuant to the Grand-Ducal Decree of July 14, 2010.

The Fund's income is not taxable in Luxembourg. No tax is deducted at source at the moment from any income distributed to unitholders.

According to the legislation currently in force, unitholders are not required to pay any income, gift, inheritance or other taxes in Luxembourg, unless they are resident in Luxembourg or maintain a permanent establishment there. Potential unitholders should familiarize themselves with the legal stipulations regarding the subscription, purchase, ownership and sale of Units applicable at their place of residence, and should, if necessary, seek professional advice.

The Fund shall bear the costs specified below:

- All taxes which may be payable on the assets, income and expenses chargeable to the Fund;
- Standard brokerage and bank charges incurred by the Fund through business transactions in its assets (these charges shall be included in the purchase cost and deducted from the sales proceeds for each transaction);
- Remuneration for the AIFM which must be paid monthly and may not exceed 2.6% of the average total net assets of the Fund per year;

- Custody fees to the Depositary, which relate to the average total net assets of the Fund; the maximum custody fee amounts to 0.04% p.a.; the Depositary's fees must not exceed the specified percentage rate, although in some cases transaction fees and fees of the Depositary's correspondents may be charged in addition.
- Fees to the paying agent (in particular coupon payment commission) and to the authorized representatives in the countries of distribution;
- All other charges incurred for portfolio management, sales activities and other services rendered to the Fund but not specified; the amount of these other charges paid by the Fund shall be deducted from the fee paid to the AIFM;
- Expenses, including those for legal advice, which may be incurred by the AIFM or the Depositary through measures taken on behalf of the unitholders;
- The cost of preparing, depositing and publishing the Management Regulations and other documents in respect of the Fund, including notifications for registration, Sales Prospectuses or memoranda for all government authorities and stock exchanges (including local securities dealers' associations) which are required in connection with the Fund or with offering the Units; the cost of printing and distributing annual and semi-annual reports for the unitholders in all required languages, together with the cost of printing and distributing all other reports and documents which are required by the relevant legislation or regulations of the above-mentioned authorities; the cost of book-keeping and calculating the daily net asset value, the cost of notifications to unitholders, the fees and costs of the Fund's auditors and legal advisors, and all other similar administrative expenses, and other expenses directly incurred in connection with the offer and sale of Units, including the cost of printing copies of the aforementioned documents or reports as are used in marketing the Fund Units.
- The costs in relation to the performance of the risk management function, including the costs arising for services to the Fund in this regard.

All recurring fees shall first be deducted from investment income, then from profits from securities transactions and then from invested assets. Other expenses may be written off over a period of five years.

Automatic Exchange of Information

On 9 December 2014, the Council of the European Union adopted the Directive 2014/107/EU amending the Directive 2011/16/EU of 15 February 2011 on administrative cooperation in the field of taxation which now provides for an automatic exchange of financial account information between EU Member States ("DAC Directive"). The adoption of the aforementioned directive implements the OECD's common reporting standard CRS and generally introduces the automatic exchange of information within the European Union as of 1 January 2016.

In addition, Luxembourg signed the OECD's multilateral competent authority agreement ("Multilateral Agreement") to automatically exchange information between financial authorities. Under this Multilateral Agreement, Luxembourg will automatically exchange financial account information with other participating jurisdictions as of 1 January 2016. The CRS-Law implements this Multilateral Agreement, jointly with the DAC Directive introducing the common reporting standard in Luxembourg law.

Under the terms of the CRS-Law, the AIFM can be required to annually report to the Luxembourg tax authority the name, address, state(s) of residence, TIN(s), as well as the date and place of birth of i) each Reportable Person that is an account holder, ii) and, in the case of a Passive NFE within the meaning of the CRS-Law, of each Controlling Person(s) that is a Reportable Person. Such information may be disclosed by the Luxembourg tax authority to foreign tax authorities.

The AIFM's ability to satisfy its reporting obligations under the CRS-Law will depend on each investor providing the information, including information regarding direct or indirect owners of each investor, along with the required supporting documentary evidence. Upon request of the Fund, each investor shall agree to provide the Fund such information.

Although the AIFM will attempt to satisfy any obligation imposed on it to avoid any taxes or penalties imposed by the CRS-Law, no assurance can be given that the Fund will be able to satisfy these obligations. If the Fund

becomes subject to a tax or penalty as result of the CRS-Law, the value of the Units may suffer material losses.

Any investor that fails to comply with the AIFM's documentation requests may be charged with any taxes and penalties imposed on the Fund attributable to such investor's failure to provide the information and the AIFM may, in its sole discretion, redeem the Units of such investor.

Investors should consult their own tax advisor or otherwise seek professional advice regarding the impact of the CRS-Law on their investment.

14. Alternative Investment Fund Manager

MultiConcept Fund Management S.A. acts as AIFM for the Fund. In this capacity, the AIFM must perform at least the following tasks in relation to the management of the Fund:

- Portfolio management;
- Risk management.

Furthermore, the AIFM also performs the following tasks except where they are transferred to other service providers as described in this Sales Prospectus:

- Administrative tasks:
 - Legal services and fund accounting services;
 - Processing of client inquiries;
 - Portfolio valuation and calculation of the net asset value including tax returns;
 - Monitoring compliance with applicable statutory and administrative provisions;
 - Managing the register of investors;
 - Profit distribution;
 - Issue and redemption of Units;
 - Contractual settlement including sending of any certificates;
 - Record-keeping;
- Distribution of Units;
- Activities in connection with the assets of the Fund, in particular advisory services and services in connection with mergers and the acquisition of companies and other services in connection with the administration of the Fund and the companies and other assets in which the Fund has invested.

The AIFM was incorporated in Luxembourg on January 26, 2004 under the name Multi-Asset Platform Fund Management Company, as a joint-stock company for an indefinite period. Besides the provisions of the Law of July 12, 2013, it is also subject to the provisions of Chapter 15 of the Law of 2010 and acts as management company for the Fund. The AIFM is registered at the Luxembourg Registry of Commerce under no. R.C.S. B 98834. It has its registered office in Luxembourg, 5, rue Jean Monnet, L-2180 Luxembourg.

The AIFM's equity capital amounts to CHF 3,336,125.

The AIFM shall be supervised by an independent statutory auditor. At present, this function is performed by KPMG Luxembourg S.à r.l.

In addition to the Fund, the AIFM also manages other undertakings for collective investment.

15. Portfolio Manager

The AIFM may, at its own discretion, appoint a portfolio manager to implement the Fund's investment policy. The AIFM may appoint or dismiss another portfolio manager at any time.

The role of the portfolio manager is to take investment decisions for the Fund under the supervision and responsibility of the AIFM.

A portfolio manager cannot be appointed if there is a risk that his interests may conflict with those of the Fund, the AIFM or the unitholders of the Fund unless the portfolio manager has separated the provision of portfolio management tasks in functional and hierarchical terms from other potentially conflicting areas of activity. Possible conflicts of interest must be identified and monitored, and be reported to the unitholders should they manifest themselves in material terms.

The AIFM has appointed responsAbility Investments AG, Zurich, as the Portfolio Manager of the Fund. responsAbility Investments AG was established on April 29, 2003 under the name responsAbility Social Investment Services AG as a Swiss joint stock company for an indefinite period with share capital of CHF 751,000 and entered in the Commercial Register of the Canton of Zurich on May 13, 2003. The Commercial Register no. is CHE-110.061.297.

responsAbility Investments AG is subject to supervision by the Swiss financial market supervisory authority FINMA.

The corporate purpose of responsAbility Investments AG is to provide financial and advisory services in the field of investment, especially with regard to development investments. The Portfolio Manager operates in Switzerland as the asset manager for collective investment schemes for private and institutional investors who have their place of residence or company seat primarily in Switzerland and Europe. It may sell or place collective investment schemes.

responsAbility Investments AG is one of the world's leading independent asset managers specializing in development-related sectors in emerging markets. This includes such areas as finance, agriculture, healthcare and energy.

responsAbility Investments AG arranges debt- and equity-based financing of unlisted companies with business models geared to people at the lower end of the income spectrum, aiming in this way to drive economic growth and social progress. responsAbility Investments AG offers professionally managed investment solutions. In addition to its own professional expertise, responsAbility Investments AG draws on a broad-based network of specialists in the areas of development cooperation, finance, economics, research and science, politics and ethics.

The Board of Directors of responsAbility Investments AG consists of the initiators and partner banks. The Board of Directors has experience in the fields of microfinance, finance, asset management and development cooperation.

The executive management team at responsAbility Investments AG, consisting of Rochus Mommartz (chief executive officer), Karin Schoch and Roland Pfeuti has many years of experience and is particularly qualified in microfinance, financial sector development, sustainable investments, private equity, rating, screening, investment funds and asset management.

- Rochus Mommartz, chief executive officer of responsAbility Investments AG, is responsible for the definition and implementation of strategic objectives as well as for all activities in the areas of Legal & Compliance, Finance, Research, Human Resources, Risk Management and Corporate Communications. Rochus Mommartz studied economics and mathematics in Frankfurt and Berlin and has more than 20 years of experience in finance, in particular in finance sector development and microfinance. He played a key supporting role in the expansion of ProCredit Holding in Latin America and has been a Board member at various microfinance banks during the last 10 years.
- Karin Schoch is responsible for Regions & Operations, which encompasses the investment regions Africa, Asia-Pacific, EECCA/MENA (Eastern Europe, Caucasus, Central Asia, Middle East and North Africa) and Latin America, as well as the service areas HR, ICT and Corporate Services. As Chief Human Resources Officer she is responsible to ensure a modern, sustainable and values-based approach to human capital management that takes account of responsAbility's business philosophy and strong growth. Karin Schoch studied Applied Linguistics and Strategic Human Resources Management and has more than 15 years of strategic and operational management experience with a focus on human capital

management in the areas of investment management, consulting and financial services.

- Roland Pfeuti is responsible for Investment Solutions and Sales – Fund Management, Product Management, Sales and Marketing. Roland Pfeuti studied Economics and Business Administration at the University of Basel and has over 30 years' experience in Project Finance, Investment Banking and Private Equity, including leadership roles at Asia Climate Partners, RobecoSAM, Julius Baer and Credit Suisse/Credit Suisse First Boston. He led the establishment of the largest mid-market growth private equity funds in the environmental sector in Asia and initiated innovative studies, including "CleanTech – From Venture to Growth", "Sustainable Forestry" and "Sustainable Infrastructure Investing".

16. The Depositary

Through the Depositary and Paying Agent Agreement of September 8, 2014 ("Custodian Bank and Paying Agent Agreement"), Credit Suisse (Luxembourg) S.A. was appointed as the Fund's Depositary and entrusted with the duties of the Depositary.

Credit Suisse (Luxembourg) S.A. is a joint stock corporation ("société anonyme") under Luxembourg law and was established for an indefinite period. Its registered office is at 5, rue Jean Monnet, L-2180 Luxembourg, Grand Duchy of Luxembourg. Credit Suisse (Luxembourg) S.A. is entitled to perform all banking business permitted under Luxembourg law.

The Depositary performs its duties and responsibilities, including the provision of custody and/or other services, in accordance with the Law of 2010, the Law of July 12, 2013 and the Custodian Bank and Paying Agent Agreement concluded with the AIFM. The Depositary shall not provide any services to the Fund which could give rise to a conflict of interests between the Fund, the AIFM, the unitholders of the Fund and the Depositary unless Depositary has separated the provision of its tasks in accordance with the Custodian and Paying Agent Agreement in functional and hierarchical terms from other potentially conflicting areas of activity. Possible conflicts of interest must be identified and monitored as well as reported to the unitholders should they manifest themselves in material terms.

Under the Custodian Bank and Paying Agent Agreement, the Depositary, in accordance with the duties and obligations specified in the Law of 2010 and the Law of July 12, 2013, has been entrusted with the safe custody of the assets of the Fund and ensures that the Fund's cash flow is monitored in an effective and orderly manner. Furthermore, the Depositary ensures that (i) the sale, issue, repurchase, redemption and cancellation of the Units are conducted in accordance with Luxembourg law; (ii) the net asset value of the Units is calculated in compliance with Luxembourg law and the procedures laid down in the Law of July 12, 2013; (iii) the orders of the AIFM are executed provided they do not infringe applicable Luxembourg law; (iv) in the case of transactions involving the Fund's assets the counterpayment is transferred to the Fund within the customary time period; (v) the Fund's income is used in accordance with Luxembourg law and the Articles of Association.

In accordance with the provisions of the Custodian Bank and Paying Agent Agreement and the Law of 2010 as well as the law of July 12, 2013, the Depositary, subject to certain conditions and in order to carry out its tasks efficiently, may from time to time appoint one or more sub-custody agents with the full or partial performance of its safe custody duties in relation to financial instruments. When selecting and appointing a sub-custody agent, the Depositary exercises all due care, probity and expertise required under the Law of 2010 and the Law of July 12, 2013 to ensure that the Fund's financial instruments are entrusted only to those sub-custody agents offering appropriate standards of protection. The Depositary may hold the Fund's financial instruments in collective safekeeping accounts with a sub-custody agent. However, it must ensure that these assets are kept safely and in a manner that ensures their separation from the assets of the Depositary and those of the sub-custody agent in the books and records of the sub-custody agent.

The Depositary's liability remains unaffected by the appointment of such sub-custody agent, unless specified otherwise by the Law of July 12, 2013 and the Custodian Bank Agreement.

Under the provisions of the Law of July 12, 2013, the Depositary shall be liable to the Fund and its investors for the loss of a financial instrument held in safe custody by the Depositary or a sub-custody agent. However, the Depositary shall not be liable if the loss of a financial instrument is not the result of the Depositary's own actions or omissions or those of a sub-custody agent and the Depositary can prove in accordance with the Law of July 12, 2013 that it was unable to prevent the consequences of the loss, despite taking all precautionary measures that are incumbent upon a conscientious depositary in accordance with standard market practice within the industry as well as the strict and comprehensive due diligence customary for the industry.

Furthermore, the Depositary may refuse to accept a financial instrument should the objective reasons specified in the Law of July 12, 2013 apply, until the Depositary's release from liability in the event of the loss of the financial instrument is contractually agreed. Objective reasons for agreeing to the Depositary's release from liability include cases where the Depositary has no option other than to transfer its safekeeping obligations. This will be the case in particular if (i) the statutory provisions of a country specify that certain financial instruments must be kept in safe custody by a local institution and in the Depositary's assessment there is no local institution subject to effective regulation, including minimum capital requirements, and monitoring in the jurisdiction concerned as well as regular external auditing to ensure that the financial instruments are in its possession, or (ii) the AIFM or the Portfolio Manager insist on carrying out or maintaining an investment in a particular jurisdiction even though the Depositary on the basis of its initial or ongoing due diligence assessments is not convinced or is no longer convinced that the safe custody risk in the jurisdiction concerned is acceptable in its view. The AIFM will revise this Sales Prospectus with regard to each subfund for which the Depositary's release from its liability was agreed. The investors concerned will furthermore be informed accordingly by the AIFM.

The Depositary shall not be liable to the Fund and its investors for the loss of a financial instrument that was booked via a securities settlement system, including the central securities depositories.

Furthermore, pursuant to the Law of July 12, 2013, the Depositary shall not be liable to the Fund and its investors for any further losses unless they arise from a negligent or wilful breach of the Depositary's duties.

The AIFM or the Depositary may terminate the Custodian Bank and Paying Agent Agreement at any time by giving ninety (90) days' notice. In the event of a termination by the Depositary, the AIFM is required to appoint a new depositary to assume the functions and responsibilities of the Depositary within two (2) months of the end of the aforementioned notice period. The AIFM appoints the new depositary within 60 days of receipt of the notice of termination.

If the AIFM has not appointed a new depositary within 60 days of receipt of the notice of termination, the Depositary shall notify CSSF of this situation and the AIFM will decide to liquidate the Fund without delay unless a new depositary was appointed within two (2) months of the expiry of the notice period of ninety (90) days.

17. Central Administrator

The AIFM has delegated all central administration tasks of the Fund, including legal services and fund bookkeeping, processing of client inquiries, calculation of the net asset value, including tax returns, monitoring of compliance with statutory and regulatory provisions, management of the register of investors, profit distribution, the issuing and return of Units, contractual settlement, including the sending of any certificates and the keeping of records, to Credit Suisse Fund Services (Luxemburg) S.A. ("Central Administrator").

With the consent of the AIFM, the Central Administrator can transfer one or all duties to one or more third parties.

18. Risk Management and Liquidity Risk Management

In accordance with Article 14 of the Law of July 12, 2013 and Article 38 et seq. of Regulation (EU) no. 231/ 2013, the AIFM's risk management function should be independent of the operating Units in hierarchical and functional terms. In accordance with the Law of July 12, 2013 and other applicable provisions, in particular Regulation (EU) no. 231/ 2013, the AIFM employs a risk management process to measure and control the Fund's global exposure using the "commitment approach". Accordingly, positions in derivative financial instruments are converted into the respective underlyings.

The AIFM uses processes that enable it to monitor the Fund's liquidity risk and ensure that the liquidity profile of the Fund's investments is compatible with the underlying liabilities. The AIFM conducts regular stress tests in normal and extraordinary liquidity conditions, enabling it to assess the Fund's liquidity risk and monitor it accordingly.

19. Accounting Year

The accounting year of the Fund closes on March 31 of each year.

The Fund's assets shall be audited by the Fund's auditor, KPMG Luxembourg, S.à r.l..

20. Information to Unitholders

The audited annual reports shall be made available to unitholders at the registered office of the AIFM, at the Paying Agents and Distribution Agents, within four months of the close of each accounting year. Unaudited semi-annual reports shall be made available in the same way within two months of the end of the accounting period to which they refer.

The audited annual reports contain the following information in particular:

- the proportion of the Fund's assets that are subject to special provisions on account of their illiquidity;
- any new rules with regard to the monitoring of the Fund's liquidity;
- the Fund's current risk profile and the risk management systems used by the AIFM to monitor the Fund's risks;
- any changes with regard to the maximum level of leverage (if any) applied by the AIFM in relation to the Fund; in addition all rights to reuse collateral and any guarantees issued as part of the respective leverage arrangements; and
- the degree of leverage with regard to the Fund (if any).

Due to the very niche nature of the agriculture as well as micro and SME-finance market, maturity and interest rate details of investments will not be disclosed in the annual report. This is to ensure healthy competition in the market and to mitigate the risk of pressure on deal pricing. This measure is in the best interest of all investors as it ultimately contributes to enhanced returns and market protection.

Other information regarding the Fund, as well as the issue and redemption prices of the Units, may be obtained on any business day at the registered office of the AIFM.

All announcements to unitholders, including any information relating to a suspension of the calculation of the net asset value, shall, if required, be published in the "RESA", the "Luxemburger Wort" and various newspapers in those countries in which the Fund is admitted for sale.

The AIFM may also place announcements in other newspapers and periodicals of its choice.

Investors may obtain the Sales Prospectus, the latest annual and semi-annual reports and copies of the Management Regulations free of charge from the registered offices of the AIFM. The AIFM's articles of incorporation and the necessary contracts are available for inspection at the registered office of the AIFM during normal office hours.

Furthermore, the following information is available free of charge at the registered office of the AIFM during normal hours of business:

- a list of all fees, costs and expenses as well as the respective maximum amount to be borne directly or indirectly by the Fund and its unitholders;
- a description of how the AIFM ensures equal treatment of all unitholders;
- where available, information about the Fund's historical performance;
- the proportion of the Fund's assets that are subject to special provisions on account of their illiquidity;
- a description of the AIFM's procedure with regard to the monitoring of liquidity risk and all new provisions with regard to the monitoring of the Fund's liquidity;
- the Fund's current risk profile and the risk management systems used by the AIFM to monitor the Fund's risks;
- any changes with regard to the maximum level of leverage (if any) applied by the AIFM in relation to the Fund; in addition all rights to reuse collateral and any guarantees issued as part of the respective leverage arrangements; and
- the degree of leverage with regard to the Fund (if any).

21. Rights of Unitholders

Unitholders have no direct contractual rights against the service providers of the Fund appointed from time to time.

22. FATCA

The Foreign Account Tax Compliance provisions of the Hiring Incentives to Restore Employment Act (commonly known as "**FATCA**") generally impose a new reporting regime and potentially a 30% withholding tax with respect to (i) certain US source income (including dividends and interest) and, beginning January 1, 2019, gross proceeds from the sale or other disposal of property that can produce US source interest or dividends ("**Withholdable Payments**") and (ii) beginning no earlier than January 1, 2019, a portion of certain non-US source payments from non-US entities that have entered into FFI Agreements (as defined below) to the extent attributable to Withholdable Payments ("**Passthru Payments**"). As a general matter, the new rules are designed to require U.S. Persons' direct and indirect ownership of non-US accounts and non-US entities to be reported to the Internal Revenue Service (the "**IRS**"). The 30% withholding tax regime applies if there is a failure to provide required information regarding US ownership.

Generally, the new rules will subject all Withholdable Payments and Passthru Payments received by a foreign financial institution (an "**FFI**") to 30% withholding tax (including the share that is allocable to non-US investors) unless the FFI enters into an agreement with the IRS (a "**FFI Agreement**") or complies with the terms of an applicable intergovernmental agreement (an "**IGA**"). Under an FFI Agreement or an applicable IGA, an FFI generally will be required to provide information, representations and waivers of non-US law as may be required to comply with the provisions of the new rules, including, information regarding its direct and indirect US account holders.

The governments of Luxembourg and the United States have entered into an IGA regarding FATCA (the "**Luxembourg IGA**"). Provided the Fund adheres to any applicable terms of the Luxembourg IGA, the Fund would not be subject to withholding or generally required to withhold amounts on payments it makes under FATCA. Additionally, the Fund will not have to enter into an FFI Agreement with the IRS and instead would be required to obtain information regarding account holders and report such information to the Luxembourg tax administration, which, in turn, would report such information to the IRS.

In certain circumstances, if any unitholder fails to provide the required information to the Fund, the Fund may take any of the following actions: (i) withhold any taxes required to be withheld under the relevant rules, legislation or agreements, and/or (ii) redeem a non-compliant unitholder's Units. Any tax caused by a unitholder's failure to comply with FATCA will be borne by such unitholder.

Each prospective unitholder should consult its own tax advisors regarding the requirements under FATCA with respect to its own situation.

23. Common reporting standard

The Fund can be subject to the Standard for Automatic Exchange of Financial Account Information (the «Standard») and the Common Reporting Standard («CRS»), which is enshrined in Luxembourg law dated 18 December 2015 implementing Council Directive 2014/107/EU of 9 December 2014 as regards mandatory automatic exchange of information in the field of taxation (the "CRS-Law").

Under the terms of the CRS-Law, the Fund is treated as a Luxembourg Reporting Financial Institution. As such, as of 30 June 2017 and without prejudice to other applicable data protection provisions, the Fund is required to annually report to the Luxembourg tax authority personal and financial information related, inter alia, to the identification of, holdings by and payments made to (i) certain investors as per the CRS-Law (the "Reportable Persons") and (ii) Controlling Persons of certain non-financial entities ("NFEs") which are themselves Reportable Persons. This information, as exhaustively set out in Annex I of the CRS-Law (the "Information"), will include personal data related to the Reportable Persons.

The Fund's ability to satisfy its reporting obligations under the CRS-Law will depend on each investor providing the Fund with the Information along with the required supporting documentary evidence. In this context, the investors are hereby informed that, as data controller, the AIFM will process the Information for the purposes as set out in the CRS-Law. The investors undertake to inform their Controlling Persons, if applicable, of the processing of their Information by the Company.

The term "Controlling Person" means in the present context any natural persons who exercise control over an entity. In the case of a trust it means the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, and any other natural person(s) exercising ultimate effective control over the trust, and in the case of a legal arrangement other than a trust, persons in equivalent or similar positions. The term "Controlling Person" must be interpreted in a manner consistent with the Financial Action Task Force Recommendations.

Investors are furthermore informed that the Information related to the Reportable Persons will - in accordance with and for the purposes as set out in the CRS-Law - be annually reported to the Luxembourg tax authority. Reportable Persons are in particular informed that certain operations performed by them will be reported to them through the issuance of statements, and that part of this information will serve as a basis for the annual disclosure to the Luxembourg tax authority.

Analogous investors undertake to inform the AIFM within thirty (30) days of receipt of these statements should any included personal data not be accurate. The investors further undertake to immediately inform the AIFM of, and provide the AIFM with all supporting documentary evidence of any changes related to the Information after occurrence of such changes.

Any investor that fails to comply with the AIFM's documentation requests may be charged with any taxes and penalties imposed on the Fund attributable to such investor's failure to provide the information.

24. Data protection

The AIFM is committed to protecting the personal data of the investors (including prospective investors) and of the other individuals whose personal information comes into its possession in the context of investor's investments in the Fund.

For the purpose of this paragraph, "controller", "processor", "data subject", "personal data" and "processing" shall have the meanings given to them under the Data Protection Legislation (defined as comprising the EU General Data Protection Regulation (EU) 2016/679 (hereinafter the "GDPR"), the EU General Data Protection Regulation (EU) 2016/679, European Commission decisions, binding EU and national guidance and all national implementing legislation.

The Fund and the AIFM are joint data controllers within the meaning of the GDPR and undertake to hold any personal data provided by investors and prospective investors (hereinafter investors) in accordance with Data Protection Legislation.

Where the investor is a non-natural person, the investor represents and warrants that:

- (i) all personal data that is provided or made available to the Fund and the AIFM has been collected, processed and transferred in accordance with the Data Protection Legislation;
- (ii) in particular and without restriction, (where applicable) that the consent of the data subjects to whom the personal data relates has been procured to the processing and the disclosure of their personal data as described herein;
- (iii) such personal data is adequate, relevant, and limited to what is necessary for the purposes described herein, and is accurate and up-to-date.

In the course of business, the Fund and the AIFM will collect, record, store, transfer and otherwise process information by which investors may be directly or indirectly identified. Personal data includes identifiers such as: name, date of birth, gender, address, email address, nationality, tax identification number, financial and investment qualification, shareholder reference number, national identification number, telephone/mobile number, fax number, bank details, and power of attorney details.

Sources of personal data: The Fund and the AIFM collect personal data about investors mainly through the following sources:

- (i) subscription forms, investor questionnaires and other information provided by the investor in writing (including any anti-money laundering, identification, and verification documentation), in person, by telephone (which may be recorded), electronically or by any other means;
- (ii) transactions within the Fund, including account balances, investments, distributions, payments and withdrawals;
- (iii) information captured on the Fund's website, including registration information and any information captured via cookies, and
- (iv) credit reference agencies and available public databases or sources, such as news outlets, websites and international sanctions lists.

Purposes and legal bases: The Fund and the AIFM may process a prospective investor's personal data for any one or more of the following purposes and legal bases:

- 1) to comply with any applicable legal, tax or regulatory obligations on the Fund and/or any of its delegates or service providers under any applicable laws including but not limited to anti-money laundering and counter-terrorism legislation. If any such obligations derive from the laws of a non-European Economic Area country (the European Economic Area consisting of EU Member States and the EEA EFTA states - Iceland, Liechtenstein and Norway) the Fund and/or any of its delegates or service providers will be obliged to comply with those obligations in connection with the provision of services to investors;
- 2) in order to enable the Fund and investors to satisfy their contractual duties and obligations to each other;
- 3) for any other legitimate business interests' of the Fund including for statistical analysis, direct marketing and market research purposes, where such interests are not overridden by the interests of the investor;
- 4) to operate the Fund, to manage and administer an investor's investment in the Fund and any related accounts on an on-going basis;
- 5) to verify the identity of the Fund in connection with any actual or proposed investments of the Fund;
- 6) risk management and control purposes relating to the Fund or any entity in the same group as the Fund;
- 7) to investigate and respond to any complaints about the Fund and to help maintain service quality and train staff to deal with complaints and disputes; or
- 8) for any other specific purposes where investors have given their specific consent.

Investors are required to provide their personal data for statutory and contractual purposes. Failure to provide the required personal data or an objection to processing may result in the Fund being unable to permit, process, or release the investor's investment in the Fund and this may result in the Fund terminating its relationship with the investor. Further, there are situations where the Fund and the AIFM can refuse to comply

with a request to restrict further processing (for example, where it is subject to a legal obligation to process the data). Where the processing is based on consent, the withdrawal of consent shall not affect the lawfulness of any prior processing based on consent received or processing for other reasons and based on other grounds where this is permitted under applicable law.

The Fund and the AIFM will only use an investor's personal data for the purposes for which it was collected, unless the Fund and/or the AIFM reasonably consider(s) that the Fund and/or the AIFM need(s) to use it for another reason and that reason is compatible with the original purpose. If the Fund and/or the AIFM need(s) to process personal data for an unrelated purpose, the Fund and/or the AIFM will notify the investor and explain the legal basis which allows the Fund and/or the AIFM to do so.

Automated decision making: The Fund and the AIFM do not envisage that any decisions will be taken about an investor using fully automated means, however the Fund and the AIFM will notify the investor in writing if this position changes.

External transfers / Processors: The Fund and the AIFM will not transfer personal data to a country outside of the EEA unless:

- that country ensures an adequate level of data protection (such as Andorra, Argentina, Canada (commercial organisations), Faroe Islands, Guernsey, Israel, Isle of Man, Jersey, New Zealand, Switzerland, Uruguay and the US (limited to the Privacy Shield framework)), or
- appropriate safeguards such as the model clauses (which are standardised contractual clauses, approved by the European Commission) are in place, or
- the Fund and the AIFM rely on one of the derogations provided for under GDPR, for example where the investor has consented to such transfer.

Where processing is carried out on behalf of the Fund and/or the AIFM, the Fund and/or the AIFM shall engage a data processor, which provides sufficient guarantees to implement appropriate technical and organisational security measures in a manner that such processing meets the requirements of Data Protection Legislation, and ensures the protection of the rights of investors. The Fund and/or the AIFM will enter into a written contract with the data processor which will set out the data processor's specific mandatory obligations as laid down in Data Protection Legislation, including to process personal data only in accordance with the documented instructions from the Fund and/or the AIFM.

Retention: The Fund and the AIFM will not keep personal data for longer than is necessary for the purpose(s) for which it was collected. In determining appropriate retention periods, the Fund and the AIFM shall have regard to any applicable statutes of limitation and any statutory obligations to retain information, including anti-money laundering, counter-terrorism, tax legislation. The Fund and the AIFM will take all reasonable steps to destroy or erase the data from its systems when they are no longer required.

Investor rights: Investors have the following rights:

- (a) access their personal data;
- (b) correct personal data where it is inaccurate or incomplete;
- (c) restrict under certain circumstances the further processing of their personal data
- (d) ask for erasure of their personal data under certain circumstances;
- (e) object to the use of their personal data (including for direct marketing purposes)
- (f) ask for personal data portability under certain circumstances.

An investor may exercise its rights by writing to the AIFM at the following e-mail address: luxembourg@responsability.com.

25. Additional information for investors

a) Information for investors in Switzerland

General information

The Representative of the Fund in Switzerland is Credit Suisse Funds AG, Uetlibergstrasse 231, CH-8070 Zurich.

The Paying Agent in Switzerland is Credit Suisse AG, Paradeplatz 8, CH-8001 Zurich.

Unitholders may obtain the Sales Prospectus, copies of the Management Regulations and the latest annual and semi-annual reports free of charge from the Representative in Switzerland.

All notices to Unitholders shall be published on the electronic platform "www.swissfunddata.ch". The issue and the redemption prices or the net asset value together with a footnote "excluding commissions" shall be published on the electronic platform www.swissfunddata.ch.

With respect to Units distributed in Switzerland and out of Switzerland, the place of performance and jurisdiction is deemed to be the registered office of the Representative in Switzerland.

Investors should note that, in the case of funds with alternate currency classes, the currency hedging transactions for one unit class may, in exceptional cases, adversely affect the net asset value of the other unit classes.

It should be pointed out in connection with the above section on the Portfolio Manager that an analysis of the investment targets is made prior to execution of a particular transaction.

Depending on whether the transaction is classified as a standard transaction or a more complex one, various Units within the AIFM may be involved in the decision, depending on the individual case.

Where the transaction is deemed to be a complex one, the AIFM consults the legal, compliance, investment monitoring, valuation, and product management Units.

Information regarding the distribution

The AIFM as well as his delegates may pay retrocessions as compensation for the distribution of Fund Units within or from Switzerland. This fee may in particular compensate the following services:

- The storage and delivery or marketing material and legal documents;
- Forwarding or making accessible respectively of legally required and other documents;
- Performing the duty of care as delegated by the representative in areas such as assessing the clients' needs and distribution restrictions;
- Clarification and answering of special requests of investors regarding the investment product or the provider;
- Relationship management;
- Training of client advisers in the area of collective investment schemes;
- Assigning an auditor for the audit of compliance with certain duties of the distributor, in particular with the provisions for distribution of the Swiss Funds & Asset Management Association SFAMA.

Retrocessions are not considered to be rebates even if they are effectively to be wholly or partially transferred to the investors.

The recipients of the retrocessions ensure a transparent disclosure and inform the investor spontaneously and free of charge about the amount of the distribution fee which they may receive due to the distribution.

At request, the recipients of retrocessions disclose the actually received amounts that they have received for the distribution of the Fund.

The AIFM and its delegates do not pay any rebates in the distribution within or from Switzerland in order to reduce the costs and expenses that apply to investors and that are charged to the Fund.

Option of forwarding the portfolio management fee

The portfolio manager may in its discretion pass on its portfolio management fee wholly or partially to investors and other recipients.

b) Distribution of Units in Liechtenstein

The Paying Agent in Liechtenstein is LGT Bank in Liechtenstein Aktiengesellschaft, Herrngasse 12, FL-9490 Vaduz.

Announcements to investors concerning amendments to the Management Regulations, change of the AIFM or the Depositary as well as the liquidation of the Fund are published in the "Liechtensteiner Vaterland".

Prices are published on the electronic platform "www.swissfunddata.ch" each day on which Units are issued and redeemed. At least twice a month, prices are published in the "Liechtensteiner Vaterland".

c) Distribution of Units in Germany

In the Federal Republic of Germany, the Units of the Company can only be distributed to professional and semi-professional investors.

Distribution to retail investors is not authorised.

According to § 1 (19) Nr. 33 KAGB, a semi-professional investor is:

- a) each investor:
 - aa) who commits to invest at least 200 000 Euro;
 - bb) who confirms in writing, in a contract separate to the investment commitment, that he is aware of the risks associated with the intended commitment or investment;
 - cc) whose expertise, experience and knowledge is assessed by the AIFM or the distributor it has appointed, without proceeding on the assumption that the investor possesses the market knowledge and experience of the investors mentioned in Annex II section I of the Directive 2004/39/EC;
 - dd) in relation to which the AIFM, or the distributor it has appointed, in view of the nature of the intended commitment or investment, is sufficiently convinced that it is capable of taking its investment decisions on its own and that it understands the risks involved and that such a commitment is appropriate for the investor concerned; and
 - ee) to whom the AIFM, or the distributor it has appointed, confirms in writing that it has made the assessment mentioned under cc) and that the prerequisites mentioned under dd) are given.
- b) a general manager or employee of the AIFM as mentioned in § 37 (1) KAGB, provided that it invests into AIFs managed by the AIFM; or a member of the management; or of the board of directors of an externally managed investment company, provided that it invests into the externally managed investment company;
- c) each investor, who commits to invest at least 10 million Euro in an collective investment undertaking (*Investmentvermögen*).

Glossary

Microfinance	In simple terms, microfinance (MF) is retail banking for developing countries; in other words providing financial services for low-income but economically active people: the microentrepreneurs. The most important MF activities are the provision of microcredit, payment services and microsaving, alongside other financial services (e.g. insurance and pension services (microinsurance) and housing loans).
Institutional investor	Each investor who fulfills the criteria of the general Luxembourg practice is considered to be an institutional investor.
FI(s)	Financial institution(s)
Agriculture value chain	The agriculture value chain includes all activities, organisations, actors, technologies, information, resources and services that are involved in the production of agricultural products for consumer markets.
Agriculture value chain actors (AVCAs)	Agriculture value chain actors include providers of seed, fertiliser, and machinery as well as transport, packaging, marketing, distribution and the production and further processing of the harvest. The agriculture value chain includes a series of interconnected actors including suppliers, producers, trading enterprises and retail traders as well as technical and economic service providers.
Microfinance institution	An organization that provides microentrepreneurs with financial services. It may have bank status, or it may take the form of a specialized financial institution, a credit cooperative or an NGO (non-government organization).
Micro-entrepreneur	Microentrepreneurs are small businesses or self-employed people in developing and transition countries.
Partner organizations	Organizations which act on behalf of the responsAbility Fund by evaluating MSME focused FIs, SMEs or AVCAs on site, proposing investments to the Fund and, following the conclusion of an investment, monitoring MSME focused FIs/SMEs/AVCAs and providing a reporting service to the Fund.
Development investment	Mobilisation of capital for return-oriented investments in development and emerging countries. By focusing on sectors relevant for the development and with a traditionally strong presence of the public sector, basic care for a broader levels of the populations is provided with help of private means and scaling.
SME(s)	Small and medium-sized enterprise(s)
MSME(s)	Micro, small and medium-sized enterprise(s)
